

Solidarity Day

Thos i Codina has been celebrating '*Solidarity Day*' since 2007. The general aim of the day is to raise awareness amongst the students about values with focus on solidarity.

On this day the school welcomes different NGOs which provide talks, organize workshops and other activities which encourage students to think of other people's reality.

To begin with, students ran laps around the school to collect money for '*Save the Children*' NGO. Like every year, many students took part for the cause.

Another way to help is through the collection of toys, clothes and food which will be sent to '*Caritas*' NGO. These things will be distributed to families who need them.

As well as these activities, students have attended a variety of workshops and talks on topics such as bullying, human rights with focus on inequality between men and women. Also topics like asylum seekers, unemployment and the financial struggle in Spain and the promotion of peace.

All this has been made possible by Caritas, Creu Roja, Amnistia Internacional, Acnur, Assemblea Cooperació per la pau, Vocalia de dones, Comerç Just, ACAPS, MPDL, F.Vicenç Ferrer, Espais Joves and Vols Immigració.

Furthermore, our students had been preparing a '*Solidarity Breakfast*' where they sold pastries, cakes and other foodstuffs to raise more money.

On the whole, this day has been a great success, full of fun and sharing. Once more the students have been highly involved in every single activity. This gives us hope that the students maintain these values throughout the year and not just today
